## BRIDGE AND TROLLEY

EDITOR GAZETTE-NEWS:  
I see by last week's issue of your paper that a movement is on foot to build a free bridge across the Halifax. Would it not be well to join with the Electric Railway Company, they to run their road to Bethune Point, where the river narrows to the shortest place, and build a bridge, which would also be near the proposed new Sanitarium?

This would give the railway an opportunity to run to Seabreeze up the ocean beach back of all the hotels. It would make the cheapest bridge possible, and also accommodate the beach hotels. W.
